

Design Technology and Art - Big Top Tent

Have a go at making your own big top tent - a place for magic to unfold. Try drawing your own nets to cut out using a compass and ruler. If you haven't used a compass before please watch this clip:

Don't forget about the key roles you might see in a circus. Think carefully about how you will get them to stand up or even look 3D. If you struggle making your own nets, there is a template on the website for you to use.
