

Dear Mrs Jeffery

My Y4 daughter has loved being contacted directly by her class teacher Miss Phillips and has now had several telephone conversations with her. Not only is she learning new phone skills – asking how someone is and thanking them for phoning, but she is able to coherently respond, talk about her home learning and give good feedback on what she has been up to or found easy/difficult. She was visibly pleased to be speaking to Miss Phillips again today and looks forward to speaking with her new class teacher during the next call.

We really appreciate the one to one contact throughout this remote learning period and also all the work that is being planned and set for the pupils so they can progress their learning and use other tools to support the work set by school.

Thanks to the teachers for keeping it all together!
