

I can put any 6 numbers up to 100 in order.

1. Put these numbers in order from smallest to biggest:

a)    24            29            22            41            72            38

b)    87            26            56            75            36            71

c)    15            52            51            18            98            49

2.    a) Write down all of the numbers you can make with the following digits:

3	7	4
---	---	---

b) Now write them in order from smallest to biggest.
