

## Task 1: Coordinates: Pirate's Treasure Island

Look at the second pirate map on the Coordinates' sheet.

Make a list of the different places on the island.

Write down the coordinates for each place on the island.

You can add some of your own ideas if you want to. Remember to write down the coordinates for each one.

E.g. volcano K,3

Here is a grid that you can use to record on OR you can make your own.

[illegible]
