

Friendship Chain

Think about some of your friends. Make your own friendship chain by following the instructions below.

Instructions

1. Cut along the middle line to make two strips of paper.
2. Using one of the strips of paper, fold in half and then in half again along the dotted lines to create four sections. Make sure the person outline can be seen.
3. Carefully cut around the person outline, cutting through all the layers of folded paper. Make sure to leave the hands intact!
4. Carefully unfold to see your friendship chain!
5. Colour in the people on your friendship chain and write on their names.

Top Tip!

Draw around the person outline onto the end of a strip of paper, folded into more sections. How many people can you make in a chain?
