# Have You Ever Received a Postcard?

What picture did it have on it?

Who was it from?

Where had they been?

What did they write about?

Did it have a special stamp on it?

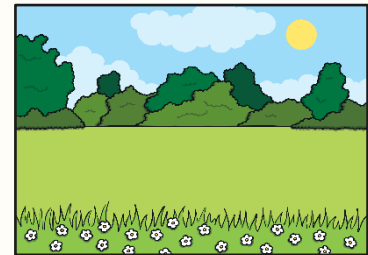

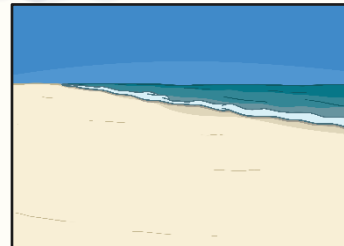

How long had they been away?

# What Is a Postcard?

Sending a postcard is a quick and easy way to write to someone.

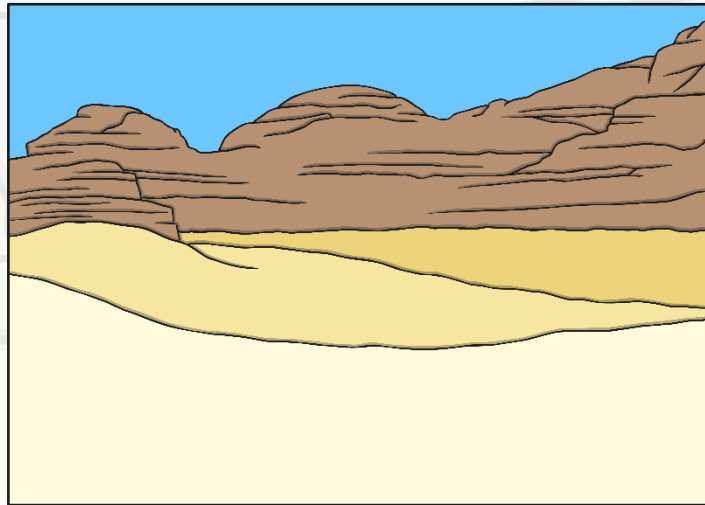

It is a single piece of card. On one side, there is usually a picture of the place the postcard is from. On the other, there is space to write a short message and space for the recipient's address.

Postcards are good for sending short messages. They are usually cheap to buy and they don't need an envelope.

# Think about It

Imagine you are on holiday in the Kalahari Desert.

What might be on your postcard?

**Remember:** What will you need to write to make sure that your postcard gets where it needs to go?

## What Do You Think Needs to Be Included in a Postcard?

Space for a picture (on the front).

Blank lines for an address.

Space to write about your holiday.

**postcard**

The name and address of who you're sending it to.

Space in the top right corner for a stamp.

Some writing to say what you've been doing on your holiday.

# If You Were a Meerkat...

If you were a meerkat who was away from home, what might you write on your postcard?

who you  
have seen

where you  
slept

what you  
didn't like  
very much

what you  
plan to do  
next

what you  
have eaten

what you  
liked most

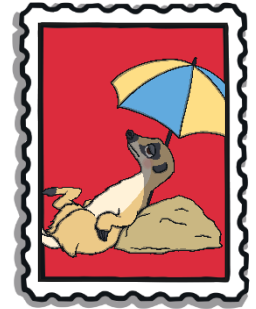

what the  
weather is  
like

how where  
you are  
reminds you  
of home
