## Reasoning about Money

Try both the activities below

### 12.1.21

$\underline{\text { LA: I can combine different coins to make a given amount }}$

How many different ways can you add these coins to reach the total of 20p? You can use the coins more than once.

## LO I can reason about coins

True or false?

5 copper coins can be worth more than 1 silver coin. Prove it true or false.
