

## Year 2 Maths w/c 11<sup>th</sup> January 2021

**Note to parents and carers:** This week we are learning about Money.

### **Key Vocabulary:**

coins

notes

gold

silver

copper

round

heptagonal

For the main lessons this week we are going to use two Oaks Academy lessons as the main activity each day. Both Mrs Brown's Year 2 Maths class and Mrs Galloway's Maths group will complete both lessons. This sequence of lessons investigates the physical properties and value of notes and coins, comparing amounts and adding and subtracting amounts, exchanging money for and calculating the cost of items and giving change.

The extension activities set this week are for Mrs Brown's Maths group. Please discuss each challenge with your child before they start as they may need some help reading the questions and then deciding what to do. It is important that your child explains their answer where this is asked for. Please note all extension activities are listed under Year 2 Maths on the Home Learning page on the Borough Green School website.

Thank you and good luck.
