

Miss Philipps and Mrs Bowers Maths Home Learning

This week we build on the multiplication skills developed last week. We will be building arrays, learning what factors are and looking at efficient methods to multiply 2 digit by 1 digit numbers. Remember that you can use any objects that you have handy to build arrays or represent base 10 equipment; or you may prefer to draw pictorial representations.

Watch the videos, pausing where necessary, and then complete the relevant worksheet. Please contact us if you need any help completing your tasks. Remember to send us your best work.

Monday 25th January

Multiply 3 numbers
