

The Voyage of The Beagle

Using an atlas, find and mark the main stops on Darwin's voyage:

Plymouth – Cape Verde – Bahia - Rio de Janeiro – Montevideo – Falkland Islands – Valparaiso – Callao-Lima – Galapagos – Sidney – Hobart – King George's Sound – Cocos (Keeling) Island – Mauritius – Cape Town – Bahia – Cape Verde – Azores – Plymouth

Can you identify which country each of these is in (where not already stated)? Can you add the journey line?

The Voyage of The Beagle
