

How to play Pictureka

There are many ways to play this game and you might like to make up your own rules but below are some suggestions to get you started.

You can use the picture games tiles individually or in groups to create a 3x3 tile game board (please note, not all images and items are on each tile).

You can play on your own, with a friend or in a group.

Picture mission:

Cut up the smaller, picture question cards and lay them face down.

Turn one over and see how fast you can find the item on the game tile/s you are using. If playing with a friend - who can find it fastest.

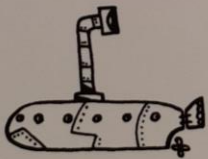

Clue mission:

Cut up the smaller, worded clue cards and see how quickly you can find matching items. If playing with a friend - who can find it fastest.

Challenge yourself (or your friend) to see how many of each item you can find in a set time (for example, 30 seconds).

- Neckties or bow ties
- Musical notes
- Noisy things
