

THE HUMAN SKELETON

- Your skeleton is made of more than 200 bones
- The body has two types of bone
- Bones are filled with a spongy tissue
- The smallest bone in the body is in your ear
- The longest bone in the body is in your leg
- Bones are strong but teeth are stronger
- Bones support, move and protect

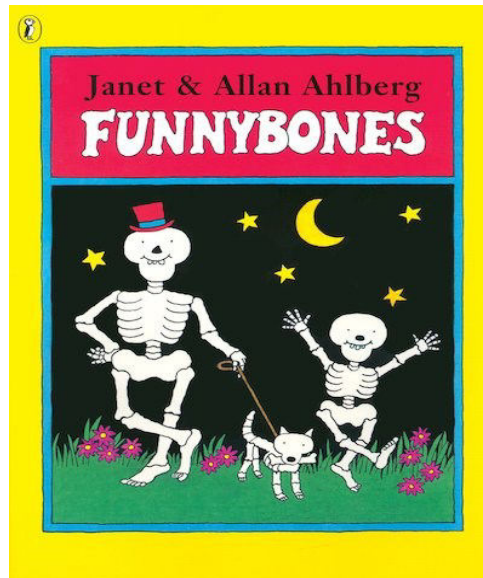

FUNNY BONES

THE FIVE SENSES

The five senses are:

Touch, taste, smell, sight and hearing

On a dark dark hill
there was a dark dark town
in the dark dark town
there was a dark dark street

What does repetition mean? Which word is repeated in the opening of the story Funnybones?

PARTS OF THE BODY

Have a look at the diagram below. Different parts of the body have been labelled. See how many you already know. Try and read the labels and point to the parts of your body at the same time.
